Several Acts of the Legislature Vetoed.

HARRISBURG, April 16.—The following is a copy of a proclamation issued by Governor Hartranft to-day:

Pennsylvania, ss. In the name and by the authority of the Commonwealth of Pennsylvania, John F. Hartranft, Governor of the said Commonwealth.

A PROCLAMATION.

I, John F. Hartranft, Governor of the Commonwealth of Pennsylvania, have caused this proclamation to issue, and in compliance with the provisions of Article four, Section fifteen, of the Constitution thereof, do hereby give notice that I have filed, with my objections thereto, in the office of the Secretary of the Commonwealth, the following bills, passed by both Houses of the General Assembly, viz.:

Senate bill No. 20, entitled "An act to declare the Trustees of the General Assembly of the Presbyterian Church in the United States of America to be the legal successors of the Trustees of the Presbyterian House, and to authorize the latter corporation to transfer the property held by them to the former."

Senate bill No. 25, entitled "A supplement to an act relating to writs of *quo warranto*, approved June 14, 1836, authorizing writs of *quo warranto* in certain cases."

House bill No. 36, entitled "A supplement to an act entitled 'An act to provide for the destruction and to prevent the spread of Canada thistles,' approved the 22d day of March, 1862."

Senate bill No. 40, entitled "An act to repeal the first section of an act relative to the appointment of Sealer of Weights and Measures, approved the 20th day of February, 1872, so far as the same relates to the appointment of such officer in and for the county of Dauphin."

Senate bill No. 65, entitled "An act to validate certain conveyances made by married women."

Senate bill No. 82, entitled "A supplement to an act entitled 'An act relative to Courts in this Commonwealth,' approved May 4, 1852, to provide for the service of writs on agents, clerks, attorneys in fact, managers or general agents of non-resident defendants in certain cases."

Senate bill No. 174, entitled "An act authorizing common carriers, factors, and commission merchants and other persons to sell goods, wares, merchandise, baggage and other property unclaimed or perishable, upon which they have a lien."

Senate bill No. 183, entitled "An act to amend an act concerning the sale of railroads, canals, turnpikes, bridges and plank roads," approved the 8th day of April, 1861, and to extend the provisions thereof to all corporations.

Given under my hand and the great seal of the State, at Harrisburg, this sixteenth day of April, in the year of our Lord 1875, and of the Commonwealth the ninety-ninth. JOHN F. HARTRANFT.

By the Governor.

M. S. QUAY,
Secretary of the Commonwealth.

The Governor approved and signed the following acts of the General Assembly today, viz.:

An act to provide for appeals in cases where the County Commissioners and Auditors have failed or shall hereafter fail to fix the compensation of County Treasurers, and repealing an act entitled "A supplement to an act relating to County Treasurers," passed the 15th day of April, 1834, approved the 18th day of April, 1874, in regard to the compensation of County Treasurers.

An act authorizing the Burgess and Town Council of each of the several boroughs throughout this Commonwealth to levy and collect a gas, kerosene oil and water tax.

A joint resolution providing for a special committee to make an investigation into the affairs of the Philadelphia & Reading Railroad Company and the Philadelphia & Reading Coal and Iron Company.

THE MINERS' WAR.

The Secret of the Long Continuance of the Strike—Too Much Credit—The Strike Said to be on Its Last Legs—The Miners Sick of the Contest.

NEW YORK, April 16.—A Pottsville (Pa.) dispatch says that the secret of the long continuance of the strike, and the miners living so comfortably and keeping so bold a front, lies in the credit system always heretofore pursued by the merchants. It was impossible at the outset to refuse to trust regular customers who had always Litherto paid promptly, and as no one knew how soon the suspension would end, the merchants were obliged to keep on "throwing good money after bad," in the desperate hope that a favorable turn in the financial tide would bring it all back again. But a crisis is at hand. Wholesale dealers have taken the alarm, and are refusing to sell goods to this region except for cash, and without fresh supplies retailers will soon have nothing for their customers but empty shelves. One firm of general dealers is credited with $42,000 already invested in the strike. Many others have from $5,000 to $20,000 on their books.

John Siney, President of the National Labor Association, is quoted as saying, "The strike is on its last feet."

The Philadelphia & Reading Railroad has adopted a plan of running power engineers ahead of all passenger trains, and find great advantage in so doing.

The miners themselves are becoming very sick of the contest, and are leaving in considerable numbers for other parts of the country. It is said that the way they anathematize the Miners' Union is something fearful, but they know better than to bolt. Not enough of them will leave, however, to make any material difference in the quantity of coal mined.

OMAHA.

High Water—Travel on the Union Pacific Railway Entirely Suspended.

OMAHA, April 16.—The high water, which for several days past has delayed trains on the Union Pacific Railroad, has finally become so high that travel is entirely suspended between Laramie City, Wyoming, and Ogden, Utah. The water is six feet deep in many places, and still rising. It is impossible to predict when travel will be resumed. The canons were reported full of snow, and it is well known that the depth of snow which fell last winter is the deepest in many years. The location of the present trouble is Bitter Creek valley, three hundred miles west of Cheyenne. Passenger trains which left here on the 13th, 14th, and 15th are lying at Laramie City and Rawlings. Those which left Ogden since the 13th are lying at points west of Green river. All are in good quarters and well cared for. The Union Pacific officials advise travelers for Utah and California not to start till notice of the blockade being broken is given.

CHICAGO.

Decision as to the Jurisdiction of the U. S. District Court—Billiard Tournament.

CHICAGO, April 16.—Judge Drummond this morning filed an opinion as to the jurisdiction of the United States District Court in the Chicago, Danville & Vincennes Railroad case. After sitting with Judge Blodgett for a hearing of the arguments, he reaffirms his first decision, namely, that the Court has jurisdiction in cases of this kind. The decision is very long, and carefully reviews the argument and points submitted.

In the billiard tournament this afternoon, McAfee beat Magrola 200 to 146; winner's average 8. The only notable feature of the game was a run of 74 made by McAfee in the eighth inning. Parker beat Honing 200 to 100; winner's average 5.26. Miller beat Liverman 200 to 161; winner's average 4.

THE BLACK HILLS.

A Mining Party Captured by Troops—Indians on the War Path.

CHICAGO, April 16.—Lieutenant Colonel Bradley telegraphs to the military headquarters here from Fort Laramie, under this date, as follows: "Captain Mix has secured the mining party near Harney's Peak, containing sixteen men, one woman and a boy. They will be here on the 18th instant. A war party of Sioux and Arrapahoes is reported to have left for the Shoshone country."

LOUISIANA.

The Lower House of the Legislature Reorganized.

NEW ORLEANS, April 16.—The House reorganized by electing Estilette, a compromise Conservative, Speaker. Estilette was supported by Kellogg and the solid Republican vote. He was elected by 66 votes to 37 for Wiltz.

THE GALLOWS.

Three Negroes and One White Man Hung for Murder—Confessions by the Culprits.

CHARLESTON, S. C., April 16.—Scipio Bryan and Elijah Atkinson, both colored, were hung at Beaufort to-day for the double crime of murder and arson in June, 1874. The execution was witnessed by about five thousand colored people. Both murderers made full confessions.

NEW ORLEANS, April 16.—Isham Brown, colored, was hung four miles from Greensburg at 10:30 this morning, for the murder of James W. Clinton, an attorney of St. Helena parish, on the 18th of December last. Brown was convicted on circumstantial evidence. The *Picayune* publishes the confession of Brown, in which he states the particulars of the killing. Brown overtook Clinton riding along the road. He shot him with a single barreled pistol. Clinton dismounted and walked to a tree a short distance from the road. Brown went up to him, when Clinton told Brown to take his horse and what he had, that he (Clinton) would say nothing about it. Brown drew his knife and cut the horse's throat, and after giving Clinton ten minutes to pray, drew his knife across Clinton's throat, took his watch and valuables, and left. This was on Friday. Clinton's body was found the following Sunday, and the conclusion of the Coroner's jury was that Clinton had lingered until that morning.

ST. LOUIS, April 16.—Travis Harris, who murdered Squire Masterson, his father-in-law, at Commerce, Mo., on the 3d of last November, was hanged at that place to-day.

ST. LOUIS.

The Forgery Cases—The Illinois and St. Louis Bridge Transferred—Return of an Absconder.

ST. LOUIS, April 16.—Circuit Attorney Narmile to-day *nolle prossequied* all the remaining cases against Jno. W. Wright, fifteen in number. The Government will pay the costs in the case.

It has transpired that the Illinois and St. Louis bridge crossing the Mississippi river here has been transferred to Morgan, Humphreys & Co., under the fourth mortgage bonds, and that a change will be made in its management. The transfer, it is said, was an amicable one, and the bridge will hereafter be in charge of Mr. Newall, formerly of the Illinois Central and Chicago & Alton roads. But little is known of the matter as yet, but the bridge authorities promise to make a statement of affairs tomorrow. Work on the Union depot progresses, and trains will begin to cross the bridge on the 9th of May.

Henry Gambs, the Public Administrator of this city, who absconded last November, some $50,000 in debt to various individuals and estates in his hands, has voluntarily returned, and is engaged with his bondsmen in settling up his affairs. Gambs has been in Mexico since he left here, engaged in the coasting trade between Vera Cruz and other Mexican ports, and will return after fixing things with his creditors.

BOSTON.

Arrival of the President and Suite—Informal Reception by Gov. Gaston.

BOSTON, April 16.—President Grant and suite arrived at 5:30 o'clock. An immense crowd had assembled at the depot, but beyond the usual surging and gazing incident to crowds, no demonstrations were made. The party entered an open carriage and was escorted by a squad of police. The procession moved slowly to the Revere House. Dense crowds lined the sidewalks along the route, and Bowdoin square, upon which the hotel faces, was densely packed with people eager to catch a glimpse of the President. Some cheering has here indulged in. Gov. Gaston was in waiting at the hotel, and informally received and welcomed the President and party. The President's apartments are quite luxurious and elaborately ornamented with flowers. This evening the President attended Mrs. Rousby's benefit at the Globe Theatre. To-morrow morning the President will be driven out to Beacon Park, to inspect blooded stock. At one o'clock he will visit the Massachusetts Club, and at two o'clock be entertained at a banquet at the Commercial Club rooms, at which Gov. Gaston will preside. At eight o'clock the Presidential party will take a special train for Concord.

IOWA.

The Allen Bankruptcy Case.

CHICAGO, April 16.—A *Tribune* special from Keokuk, Iowa, says the Allen bankruptcy case came up in the United States District Court to-day. Allen filed his answer to the creditors, denying that he has at any time delivered to Allen Stephens, of New York, a deed of mortgage whereby he conveyed to them the real estate described in the petition, or any part thereof, or that he ever made any instrument with intent to give the firm preference over other creditors, or delay the operation of the bankrupt act. The petition further denies that the aggregate of the claims of the petitioners provable under the bankrupt act against him is one-third of the debts provable against him. Then follows a list of creditors and debts due depositors, which are $413,581, due to the Cook County National Bank $644,515, unpaid drafts on New York and Chicago $11,282, or a total of $1,069,379. The court, after having reviewed the matter, and having become satisfied that one-third of the creditors have not joined in the petition, ordered that ten days more be allowed for other creditors to join in the same.

Probabilities for To-day.

For the Middle States, the lake region and the Ohio Valley, clear or clearing, and decidedly cold weather, with north to west winds, and rising barometer.

The River.

The Ohio river will fall slowly.

RHODE ISLAND.

Election for the General Assembly—Success of the Regular Republican Ticket.

PROVIDENCE, April 16.—The second trial in this city to-day to elect a Senator and nine Representatives in the General Assembly resulted in the choice of the regular Republican ticket, supported by the liquor interest, by 350 majority. This probably secures the election of Henry Lippett as Governor, and the repeal of the prohibitory and State constabulary laws. Several arrests were made for bribery and illegal voting.

OHIO ITEMS.

A SOLDIER'S MEMORIAL CHAPEL, costing $30,000, is to be erected in Glendale Cemetery at Akron.

AT BUCYRUS, Ohio, a burglar in female apparel entered the residence of George Donnon with a pistol, Tuesday last, and stole a watch and chain, and a pocket-book containing about twenty-five dollars, and was seen escaping through the window. Six other houses were entered.

MONROE COUNTY has not one mile of railroad, turnpike or telegraph within her borders. Belmont has about forty miles of railroad, ninety-four of turnpikes, and seventy of telegraph. Of the turnpikes, sixty-four miles were built by her own people, at a cost of considerably over half a million of dollars.

ALL attempts to compromise the trouble between the heirs of the late Captain E. B. Ward have failed, and it seems certain that a bitter litigation will follow. The estate is estimated at $4,000,000, with debts of $1,000,000, and there is danger that in chancery its value will be greatly diminished.

GEN. AMOS BECKWITH, who will probably be appointed Commissary General, was commissary of the combined armies in the Atlanta campaign, and of Sherman's army on the march to the sea.

DIO LEWIS says: "Let a woman teach school five years and no man can live with her as a wife." Would'nt blame her either if her husband allowed only twenty cents a week to keep up the table. The woman described by Dio would be too intelligent for his great communal domestic code. Dio's wife was a school teacher, and he knows all about it himself, or thinks he does.

IN accordance with the suggestions of a letter from Mrs. Horatio Seymour, President of the Woman's Branch of the Society for the Prevention of Cruelty to Animals, each of the clergymen of the city of Buffalo will preach one sermon a year in special support of the aims of that organ. Here is a hint for Mr. Colton.

Battle in Formosa Between Chinese and Savages.

French Aeronauts Suffocated in the Clouds.

GREAT BRITAIN.
Revival Meetings.

LONDON, April 16.—Four crowded revival meetings were held to-day. One especially devoted to students for the ministry took place at Spurgeon's tabernacle. Moody delivered an address on "Christian Work," which was rapturously applauded. Thousands rose at his invitation to go into the streets and work for Christ.

Proceedings of Parliament.

LONDON, April 16.—In the House of Commons to-night there was an acrimonious debate on the question of summoning to the bar the printers of the *Times* and *News* for breach of privilege for publishing documents in the hands of the Select Committee on Foreign Loans.

Disraeli moved a resolution that the Select Committee be instructed to investigate the affair, and report how the press obtained the documents in question. This resolution was carried, and the order summoning the printers was revoked.

GERMANY.
Revival Meetings.

BERLIN, April 16.—The success of the revival mission of Pearsall Smith in this city and other towns in Germany is increasing. Immense crowds attend the meetings, and members of the nobility occupy seats on the platforms. The Empress of Austria has given a private audience to Smith.

The Ecclesiastical Bill.

BERLIN, April 16.—The bill abrogating those clauses of the Constitution which grant the independent administration of ecclesiastical affairs, the unimpeded intercourse of religious associations with their superiors, and the freedom of clerical appointments, passed second reading to-day in the lower House of the Prussian Diet.

In the course of the debate Minister Falk said that the Government was loth to proceed to such measures, but they were unavoidable. Since the Vatican Council no one possessed the influence the Pope had. With a compact party, a well-organized press, and an army of obedient priests, this power would be serious even if it belonged to a native, instead of a foreign monarch. That monarch, if he had the means, would carry out his programme in Prussia, but he would first have to destroy the majority of the Prussian people.

The Prince closed his speech with these words: "When all the breaches in the landmarks of the State, caused by granting too many rights to unworthy objects, are repaired, then will we able to conclude peace."

BELGIUM.
Germany's Reply to the Last Note.

BRUSSELS, April 16.—In the Chamber of Deputies, this evening, the Minister of Foreign Affairs stated that the Government yesterday received Germany's reply to its last note. The reply cites no fresh facts. It descants on the principles of international law involved in the discussion, and expresses a hope that Belgium will seize the opportunity to dissipate the impression that Germany intended to attack the liberty of the press in Belgium.

The Minister, after informing the House of the contents of the note, said in addition to this correspondence, courteous verbal explanations have been exchanged with the German representative, and in conclusion he assured the Chamber that the Belgian Government sincerely desired to strengthen the good relations with Germany.

FRANCE.
Died in the Clouds.

PARIS, April 16.—A party of three persons ascended in the balloon Zenith to-day for the purpose of making scientific observations. The balloon attained the extraordinary height of 8,000 metres (over 26,000 feet.) Two of the aeronauts were suffocated to death, and when the balloon reached the ground the third was almost insensible, and has since been so ill that his recovery is doubtful.

SPAIN.
Carlist Outrages.

MADRID, April 16.—It is reported that the Carlists seized a number of women and children in the province of Soria and threatened to shoot them unless ransomed.

BY MAIL.
From China and Japan.

SAN FRANCISCO, April 16.—The Pacific Mail steamer Colorado arrived last night She left Hong Kong on the 25th ult. It is known that Government changes of considerable importance are impending. A modification of the present form of administration is pending. Greatorex is thus far maintained by the officials, owing to the efforts of foreign ministers to interfere in the disposition of Japanese internal affairs.

The past two weeks the Mikado was ill, but is now recovering.

The rule requiring the payment of two cents on newspapers arriving from America was abolished by the Japanese postoffice for public convenience.

There was considerable excitement among Japanese soldiers in consequence of news that the Chinese have already provoked a conflict with the savages of Formosa. Opinions are expressed that China should be required to give a guarantee for at least reasonable treatment of the aborigines. The circumstance of China having exacted submissive acknowledgments from the Lew Chew islanders, which is now complained, adds to the feeling of indignation against that empire. Lew Chewans concerned have arrived in Yeddo, in obedience to a Government summons. The case is now undergoing investigation.

In May, 1874, the exportation of rice from Japan was prohibited, owing to the possibility of war. The restrictions are now removed by a Government order.

Several new railways are projected in various parts of Japan. Telegraphic communication is now established between all important cities of Japan.

Intelligence of a proposal to return one-half of the Simonoski indemnity was coldly received in Japan. It is felt that the money either does or does not belong to the United States. An offer to refund a portion would not be considered welcome in the present state of opinion. Partial acknowledgment would probably be refused.

Taxes on two hundred and fifty small articles have been abolished and transferred to tobacco and native wine, which will now yield about two million dollars.

HONG KONG, March 15. SHANGHAI, March 17, 1875.—Particulars are received of a fight in Formosa between savages and Chinese troops. Two Chinese officers ventured in January last to enter the region of the Botan aborigines, and were immediately killed. On February 13th a body of one hundred troops was sent from the village of Hong Kong, on the west coast of Africa, to retaliate. They burned one village, put the inhabitants to death, including old men, women and children. On their return they were surrounded and routed, with the loss of ninety killed, among whom was the Chinese leader. The savages' deaths are estimated at thirty. There is much excitement in China over rumors of large forces to be dispatched to the scene.

Additional foreign loans are about to be negotiated to China.

Work on the Fuchas telegraph line continues interrupted. Considerable additional property of the company was destroyed by mobs.

The river Min, at Fuchas, is to be dredged, being in places almost entirely obstructed.

A torpedo boat of novel construction was launched from the yard of a local firm a few days ago, intended for the Government. It is proposed to make a trial of her powers in a week or two at the Imperial Arsenal at Yokohama.

The Nagasaki *Express* mentions the wreck of the British bark Pride of the Thames on Mitsuez Rock. It was considered impossible to raise her. She was put up for sale by auction.

UTAH.

A Flood in the Bitter Creek Valley—Bridges Swept Away and the Railroad Track Damaged.

SALT LAKE, April 16.—There are quite a number of passengers, among them Gen. Crook, here, awaiting repairs of the Union Pacific Road, in order to proceed eastward. The trouble extends for a distance of about ten miles along the Bitter Creek Valley, which has been inundated by melting snow. Two bridges are reported gone and the track washed out at several places. It is impossible to tell when trains will run over this section of the road, but the railroad men are making every effort to repair the track and bridges.

Louisiana Jockey Club Races.

NEW ORLEANS, April 16.—First race, handicap hurdle, 2 miles, over eight hurdles; won by Tom Leathers. Time 3:47½.

Second race, free handicap, mile heats; won by Mary L'. Time 1:47½ and 1:47½.

Third race, 1¼ miles, all ages; won by Captain Hutchinson. Time 3:10¼.

THE LATEST NEWS.

Condensed Telegrams from All Quarters.

—The wife of Dr. C. G. Higbee, a well-known physician of St. Paul, Minn., committed suicide on Friday evening by taking strychnine.

—At the Plymouth church prayer meeting, in Brooklyn, last evening, Mr. Beecher conducted the exercises. Nothing unusual occurred. The attendance was large.

—A fire in Charleston, S. C., yesterday afternoon, destroyed about 3,000 bales of cotton, the depots of the North Carolina and Charlotte, Columbia & Augusta Railroad Companies, and a number of private residences. The loss is $250,000.

—The Kingston and Port Colborne harbors are again blocked with ice. Five inches of snow has fallen at Seaforth since last Thursday night, and at last accounts was still snowing and freezing. Navigation on Georgian Bay is now open.

—Considerable excitement prevails among the colored element in Charleston, S. C., caused by a rumor that Bunch, the mulatto policeman who, when drunk, murdered an Irish policeman last fall, is to be pardoned by colored Lieutenant Governor Gleaves, taking advange of the absence of Governor Chamberlain, who has gone to the Lexington centennial. Bunch was to have been hung last Friday, but was respited one week by Governor Chamberlain.

Liver Complaint.

In this disease there is a peculiar cachectic condition of the blood which gives rise to a long train of diversified symptoms.

The countenance becomes sallow, the eyes have a yellowish tinge, the whole skin becomes changed in color and appearances, and not unfrequently terminates in a jaundiced condition of all the excretions, but especially the urine.

Dyspepsia soon sets in, sometimes coughs simulating consumption, Dropsy, with its usual symptoms of swelling of feet and legs—Asthmatic difficulties, Costiveness, Piles, &c. These many times so far change the symptoms in every other respect as to make it difficult for the physician to arrive at the true nature of the case by the pulse and tongue alone.

A mere ocular inspection of the urine in this disease, however, is nearly always sufficient to determine the nature of the case, and many times to give a very correct opinion of the *extent* of the mischief also.

The *melancholy* which is so apt to take place in Liver Complaint, has often led to erroneous treatment, and the worst of consequences have thus befallen the patient.

We have cured many cases of melancholy amounting even to "derangement of the mind," when the cause was plainly attributable to Liver Complaint alone.

In this disease, as in many others, the urine is so well marked as to denote the character of the disorder long before it is manifested by any other symptom or outward sign.

We have had the examination and treatment of so many cases of this disease and its complications that we have learned the kind of medicines to be used in each particular case usually—but feel satisfied that they can be treated more successfully *without*, than *with*, any mercurial preparation whatever.

In fact, our success in this affection numbers thousands of cases, and reliable cures have been made in hundreds of instances, after nearly the last vestige of hope had been exhausted.

For the benefit of those living at a distance laboring under Chronic Affections, and unable to attend in person, we would say, by sending a vial of *urine* for examination, the necessary medicines can be sent them by express.

The Preservation of the Teeth.

The prime duty of the professor of the dental art is to arrest decay, overcome disease, and direct every effort to the preservation of the teeth in their natural soundness, as the natural article is still preferable to the artificial, be they ever so excellently constructed, and this is the superior duty of the dentist, as a quack or a mediocre in the profession is unequal to the task, which can only be accomplished by one who is a complete master of the art. We take pleasure in announcing to our readers that Dr. J. S. King, whose office is No. 71 Sixth avenue, takes a pleasure in preserving rather than extracting teeth, and by assiduous study and labor has invented and perfected a painless compound which gives instantaneous relief, and permanently cures all pain resulting from the exposure of the nerve, or from disease or decay. All who have availed themselves of this discovery, (and they are legions), unite in attesting to its happy and beneficial effects. Dr. King can point to many years of successful and satisfactory labors in his profession as his best recommendation, having received the confidence and patronage of the elite of the city, and honor and integrity are guaranteed by his professional reputation and acknowledged superiority.

To those who require the services of a Dentist, either in the preservation of their natural teeth, which he makes an especial study, or in the extracting and replacing of such by elegant, comfortable and substantial artificial ones we commend Dr. King as a gentleman in whom they can feel confidence in a manner entirely satisfactory. Call at his elegant Dental Parlor, No. 71 Sixth avenue.

GOD has established the family, society and the church, and means that men in and through these should be trained to sympathy and mutual sympathy and intercourse. Sometimes persons through disease or worldliness, or possibly through a native misanthropy, get out of society but all their own, but they are failing in duty if they do not fight away all such temptations; and determine to live naturally, usefully with their kind.—*United Presbyterian.*

THE pest house question seems to attract the attention of about every one else except the Taxpayers' Union. Why not investigate that subject? Captain Ward will know the points.

THE strike in the anthracite region is believed to be near its end. The stores have been trusting the strikers till they can do so no longer, and the pressure of necessity will soon be brought to bear on the strikers.

THE Board of Engineers charged with the location and construction of the dam in the Ohio River, near this city, have inspected the location near Davis Island, and pronounced it suitable. The work of construction will be shortly begun.

THE conviction of the young man Lindsay, yesterday, of perjury, will have a very salutary influence in pointing out the danger that attends false swearing. The young man was charged with false swearing in the McAfee case, and the sudden conviction that follows his trial shows that the penalty of such a crime may follow very swiftly on its commission.

AN American, Colonel Long, who successfully explored the Uganda country, in Central Africa, has been employed by the Khedive of Egypt, to visit the region partially explored by Schueinfurth. This will take him among the dwarfs, in the Niam-Niam region. The fact is interesting as indicating the vigor with which the Khedive is pushing his conquests in Equatorial Africa.

THE finances of the English Government are sufficiently well managed, after all that is said about the large national debt, to show a balance of $2,500,000 on the credit side of the ledger. It does not seem a very rapid rate of payment, for a wealthy nation, but we are to remember that in England, they have a theory that it is not good to pay national debts too rapidly. We have a different notion here,—that is, that we should dispose of at least one per cent. of the debt yearly, or, say, some $20,000,000. This entire question may yet be more fully analyzed in this country,—not so much as to the rate of payment as to the manner. The sinking fund process was long ago abandoned in England,—and ought to be here. When we assume to pay a debt, it should be paid,—not complicated by sinking fund accounts.

A COMPROMISE.

The events of Thursday, in the Legislature in session in New Orleans, are of more importance to the peace of Louisiana than anything that has occurred in that State for a long time. The plan adopted by the Congressional Committee, and recommended to the two parties in Louisiana, was accepted, in a spirit that is in every way commendable. The several Republicans who gave up their seats in the House, and one in the Senate, cheerfully yielded, —one, Poindexter, stating that his successor was, aforetime, his master, that he was kind, and fair toward him, in the slavery era, and he was glad to give him his seat. Others stated their regard for the good order and prosperity of the State, and their readiness to subordinate every personal consideration to that end. In brief those who were ruled out, accepted the situation cheerfully, although the ratification of the action of the Committee was entirely a matter of choice. We refer to this last, voluntary manifestation, to show that the Republicans have been possessed of a fair and kindly spirit toward their political opponents, while firm to resist any unjust encroachments on their rights. The Democrats could not be otherwise than in a pleasant mood, as they were given power that could not have been attained except by the willing concession of the Republicans. Therefore, if the kindly spirit is not continued it will not be difficult to locate the responsibility.

The agreement made, involves the recognition and support of the Kellogg Government, and co-operation with it in all that pertains to the peace and prosperity of the State. If this is carried into effect, there is no good reason why industry and commerce should not revive, and Louisiana make that progress in wealth to which its great natural advantages and resources entitle it. Indeed the material prosperity of the State has been rather advanced than retarded by the Kellogg administration. The State credit is much better now than it was during Warmoth's administration; while in the city of New Orleans, which is under Conservative control, credit has declined. We hope, however, that forgetting all disagreements, the compact entered into will be faithfully observed by both parties. As a matter of general policy, the Republican party can afford to make special concessions to secure the revival of business activity, and general prosperity. If, within six months, or a year, there shall be a full revival of business activity, there will be no difficulty in electing a Republican President in 1876. If depression of industries and trade is continued, it will operate against us. We therefore welcome the adjustment of political differences in Louisiana as having in it the promise of prosperity and advantage there.

CENTENNIAL REMINDERS.

Little by little, day by day, the Centennial draws on. We have entered its portals, as it were, and during the year or more in the immediate future, we will be continually reminded of its presence. For months past, Centennial tea parties have been held, events which had in them the fragrance of Centennial tea. On Wednesday last, however, Philadelphia was honored with an actual Centennial,—the hundredth anniversary of the "Pennsylvania Society for Promoting the Abolition of Slavery." Thus in colonial times, at least a year prior to the immortal declaration, we had, under the Presidency of Benjamin Franklin, an anti-slavery organization. Hence the anti-slavery sentiment did not wait upon the movement in behalf of Constitutional freedom. True, the abolition ideas of those times were not those of the last half of a century. Then, it was a moral sentiment, entertained by slaveholders themselves, Jefferson being outspoken in his sentiments on that subject. Later, the Democratic party was perverted to the ideas of slavery propagandism, and through its influence that fearful crime was taught to be a patriarchal blessing, sustained by Scripture, and supported by the best interests of the slaves themselves. That party preached the Evangelism of Noah's curse on Ham, and set itself up as the exponent of the Gospel of the inferiority of the colored race. It became acute in ethnology, and was peculiarly fervent in its devotion to the orthodoxy of the old patriarch, as he was when recovering from an overplus of wine. His example of drinking was followed,—Bourbon whisky being substituted for wine,—and his whirli-headed curse was accepted as the Alpha and Omega of orthodoxy. Under this influence, abolitionism was treated as a crime. Not so, however, in the earlier days. All the statesmen of the land conceded the moral wrong of slavery, and did all they could to limit and enthrall it, without working injury to the slave.

Those who met in Philadelphia, the other day, to celebrate the Centennial of the organization of the anti-slavery movement, were the legitimate successors of the original stock. They simply fought the enemy as he presented himself in the later times,—the spirit of the abolitionists of the later period being only different from that of their progenitors, as the times were different. We have often wished that the history of this later struggle might be worthily written. Vice President Wilson's work on the subject is yet to appear, but we fear lest his lack of literary culture, and his failing health shall cause his work to be less perfect than the subject deserves. There were heroes in that struggle, who are worthy the most splendid literary acknowledgment. There are some of these workers still living. Others, as John Brown, and men who stood true to principle, in the face of slavery mobs on the frontier, that are dead. Indeed, the time for such a work as we speak of is not come; and twenty years must elapse before the history can be written. All that is now given to the public will be a mere collection of material, which a Prescott, or Motley, will utilize in the future.

On Monday, a batch of Centennial celebrations will take place in New England. Lexington and Concord will celebrate the heroism of their citizens of a hundred years agone, in meeting the British soldiery and disputing their mastery over Americans. The affairs at Lexington and Concord were, in fact, parts of the same event. General Gage, the British commander, had sent a force of nine hundred men from Boston to seize cannon and military stores at Concord. They reached Lexington in the early gray of the morning, and the resistance there arrested their progress for the time. Blood was shed in the street of Lexington, but the troops marched to Concord, six miles distant, where the battle was continued. To celebrate the event worthily, two demonstrations are to take place, one at Concord in the morning, and the other at Lexington in the afternoon. The President will attend both, with the members of his Cabinet. In both towns there will be orations, music, poems, and military displays. At Concord, the statue of a minute man of 1775 is to be unveiled, with an address by Ralph Waldo Emerson, an oration by George William Curtis, and a poem by James Russell Lowell. At Lexington, statues of Hancock and Adams, who were in the town at the time of the "battle," are to be unveiled, and Richard H. Dana, Jr., is to deliver the oration. Thus will be celebrated, with imposing ceremonies, events that were really trivial in themselves, but important as starting into action the purposes of the people to resist the aggressions of the English King.

From this on, Centennial events will be frequently celebrated, until on the 4th of July, 1876, the great celebration shall occur in the city of Philadelphia, which will be the National expression of gladness that our forefathers determined to emancipate themselves from foreign rule, and strike for freedom. The influence of these coming celebrations will be to increase the interest in the great event. As town after town celebrates, it will only attract attention, more and more to the National celebration, soon to occur. We welcome, therefore, all such demonstrations as contributing to the great outpouring that shall show the progress the Nation has made, in the lapse of a century.

WHEN a man hands an editor an article for publication, and asks him to "fix it up" because he "wrote it in a hurry" and "hadn't time to revise it," you may know that he commenced the article directly after supper, and wrestled with it until midnight, rewriting it fourteen times, destroyed a quire of foolscap, and "blessed" his pen every two minutes. A MONSTER SHARK.

Its Length Twenty-Nine Feet, and Its Circumference Fifteen Feet.

The London *Daily News* says: It will be recollected that, in a late issue, we announced the stranding of an immense shark at Shanklin, in the Isle of Wight. The skin of this huge fish has now arrived in London, having been purchased for the British Museum. The difficult operation of taking the skin off so gigantic a creature has been admirably carried out by Mr. Gerrard, jr., whose ability in preparing skeletons for the British Museum is well known. Its total length is twenty-nine feet, its circumference fifteen feet at the largest part. Its teeth are exceedingly small, and not the least like the large white ivory teeth seen in the sharks of museums; they are, on the contrary, very small and set with interspaces one from the other, and about the size of a cat's teeth.

This is the basking shark—*squalus maximus, cetorinus maximus, squalus elephas*, sail-fish, hoe-mother, or homor of Orkney, sun-fish, west coast of Ireland. It is not, however, to be confounded with the sun-fish—*orthagoriscus mola*—that is, the shape of the sun. These huge sharks appear in considerable numbers in the spring along the northwest coast of Donegal and Clew Bay. The Sun-fish Bank is probably the first shoal water made by the fish coming in from the Atlantic. It is possible they come there to spawn, passing the rest of their lives in the deep waters of the Atlantic. Little or nothing is known of the habits of this fish, which is probably the largest among known sharks. Couch records one taken in Cornwall measuring thirty-one feet eight inches. It is supposed that they swallow their prey alive. The Irish fishermen spear them for the sake of the oil which is to be obtained from their liver. This fish, when floating on the water, is frequently taken for the whale, on account of its somewhat sluggish movements. Hence it is also called the basking shark. It is supposed that the present specimen had lost its way, being bound, probably, for the west coast of Ireland.

Discoveries of Copper in Utah.

One of the "biggest strikes," it is said, ever made in Utah, except that by which the English stockholders of the Emma Mine were struck, is that in the Neptune and Kempton and the Jordan and Galena mines in Bingham Canon. These discoveries consist of a true vein of copper ten feet wide, with well defined foot and hanging walls. Native copper is discernible to the naked eye all through the immense vein, says a correspondent of the Salt Lake *Tribune*, for which it vouches. The Neptune and Kempton is now shipping ten tons per day, which averages the company $75 per ton. In the Jordan and Galena the vein is of the same width, and has been uncovered for a distance of ninety feet. Shipments from this mine will begin at once. The ore is easily worked, and three men can take out an average of ten tons daily. These mines surpass anything ever discovered in the famous Lake Superior copper region, and will bring millions to the pockets of the lucky owners.—*New York Bulletin.*

Hanging an Elephant.

The hanging of an elephant is a feat so very rare that it is worth mention when it occurs. At Hamburg, the keepers of the Zoo thought that it would be more economical to give the elephant a wooden floor, as the wooden one had to be replaced too often. One was laid, but the elephant would not lie down upon it to sleep. Something told him that if he did he could not get up again. Hence he slept standing, or leaning against the wall. But the other night he feet slipped when dozing, and he came down. He could not get up in fact, and twenty men with ropes, pulleys, and ingenious contrivances, worked all day trying to get him up. He was finally raised until his feet were 4 inches above the floor when the hinder ropes broke, leaving the poor beast hanging by the neck. He gave one piteous roar and was a dead elephant.

WHERE IS HE?

A Bridegroom Strangely Disappears—Suspected Foul Play.

Some interest is felt among the friends of Louis Becker, of Allegheny, concerning his whereabouts. Louis was married last Sunday evening to a domestic in Mayor Phillips' household, and the pair went to housekeeping on Jundala street, where he kept a cigar store. Last Thursday morning he left home to get some furniture from Mr Phillips. He never called at the Mayor's house and has not been heard of since he left his home. He had very little money about him when he disappeared. He was always regarded as a steady, industrious, reliable man, which leads to the fear that he has been foully dealt with.

THE OHIO RIVER IMPROVEMENTS.

The Engineers Viewing the Sites.

The Board of Engineers having in charge the Ohio river improvements, consisting of General Weitzel, Lieut. Maus, Major Merrill and Maj. Wright, met the local committee, Gen. Moorhead, Capt. Watson and Geo. H. Thurston, at the Monongahela House, when Col. Merrill, engineer in charge of the improvements, explained his plans. The whole party left for Davis Island in the river in a large tow boat. Bengal Tiger to Davis Island, opposite Behney's station. Here the party were highly satisfied with Col. Merrill's solution for the dam, and his plans for the same. It is calculated that it will give Pittsburgh a good harbor all the year round.

Congress appropriated $100,000 for it at the last session, and it is proposed to get $400,000 this year.

The party of engineers went to Cincinnati, where they will make their final decision.

DISCHARGED AND ARRESTED.

Jimmy Campbell Taken to Armstrong County for Burglary.

There was a final hearing yesterday before the Mayor in the case of Jimmy Campbell and "Cockey" Ward, who were charged with robbing the safe of Furlong & Co., on Liberty avenue, a few nights ago. No one appearing against the defendants, the Mayor was obliged to direct their discharge, but Campbell had not succeeded in getting away from Municipal Hall when he was arrested by officer Farrington, on the charge of being implicated in the burglary of Cunningham's hardware store, at Brady's Bend, last Friday night. The policeman entered the store through the side safe, but only succeeded in getting about $140. Had they performed the operation the night before (Thursday), they would have had about $1,000, which the safe contained. Officer Furlong left last night with his prisoner.

NO VERDICT YET.

The Jury in the Murray Case Still Out.

At the time the Court closed yesterday afternoon the jury in the Murray murder case had not agreed upon a verdict. Judge Ewing said that all rumors to the effect that he was going to discharge the jury were unfounded. They would have to stay until they agreed, or some of them get sick and die, in which case the trial will have to be gone through with again.

In the case of May Delaney, charged with killing a rat fiasman, in 1855, the jury was out eleven days. One of them sent home for his feather bed and vowed that the jury should remain in the box during the period of his natural existence before he would agree to acquittal. Finally they all came to his view. This woman served one year of her sentence, and two years afterward she was killed on the Birmingham bridge by Dick Jones.

TRUE LOVE'S TRIALS.

An Attempted Seduction—A Marriage that Created a Breeze.

Quite an excitement was created in a Franklin street domicil, yesterday, by a member of the family attempting to take her life. The facts, as we learn them, are as follows: The family had, for some time past, employed a young woman to do the housework. She also performed the duties of their waiting parties. But while doing this, she also ingratiated herself into the affections of a minor son in the family. This latter proceeding resulted in the marriage of the two. The family were highly indignant, and the father of the young man threatened to prosecute the minister who performed the ceremony, for marrying a minor in violation of law. This so worked upon the feelings of the new-made bride that she procured a vial of laudanum and swallowed the contents on the half of the mother-in-law. She was frustrated in her design by the family summoning Dr. E. Gelcher, who administered an antidote, and put the patient out of danger.

THE PERJURY CASE.

Verdict of Guilty—Motion for New Trial—Exceptions to the Judge's Charge.

In the case of R. H. Lindsay, charged with having committed perjury, the jury after an absence of fifteen minutes brought in a verdict of "Guilty in manner and form as indicted." His attorneys, Messrs. Moore and Reardon, thereupon decided to move for a new trial. They filed exceptions to the following parts of Judge Ewing's charge, upon which their motion will be based:

First—"That the defendant is all that he was sworn—if the evidence does not satisfy you that he was sworn beyond a reasonable doubt, it is hard to know what would satisfy you."

Second—"That testimony seems to me exceedingly singular. If this woman McAfee talked in that way she must have been crazy. The question is not what's the probability of her lawyer having told her that the release made no difference; her telling this shows that she was not crazy at all."

Third.—That the review of the testimony by the Court in the charge was in the nature of an argument for the conviction of the defendant, and not merely a statement of the law and evidence.

BRADDEE'S BONANZA.

Buried Treasure at Uniontown.

The Story of a Dying Stage Driver —United States Detectives Searching for Hidden Wealth—A Reminiscence of the Old National Pike's Early Days—Sketch of the Famous Braddee Mail Robbery Case.

Doubtless a comparatively limited number of the inhabitants of Pittsburgh remember the famous Braddee mail robbery case, which was tried in this city in the spring of 1841, and which engaged some of the brightest legal talent of the country. Owing to the peculiar circumstances of the case, aside from its real importance, it then attracted universal attention and created the greatest excitement. The passage of years, the rapid development of Pittsburgh, the death of a generation, and the trial of causes of greater moment have operated, in a measure, to blot from public memory the Braddee trial; but, nevertheless, it stands as one of the most prominent in the criminal annals of the country. Although it is but dimly remembered here, there are persons living in Uniontown, where the principal resident, and throughout Fayette county, who were connected with the case, and others who have a vivid remembrance of it because of the high standing and reputation of Dr. Braddee.

AFTER MANY YEARS.

After the lapse of thirty-four years, circumstances have occurred within the last day or two, at Uniontown, which justify a review of the case.

In 1839, the reputation of Dr. John F. Braddee, as a physician of eminent ability, and who was credited with possessing almost miraculous power to effecting cures, extended throughout the whole western country. He resided at Uniontown, and his practice was enormous in its proportions. Some who knew him, say he was a quack. It may be, for aught the writer knows to the contrary, that he was one of that still large class but, it is a matter of record that it was nothing uncommon, indeed a matter of such frequent occurrence as not to attract particular attention, to see the horses of a hundred patients hitched in front of his residence; patients who had made an equestrian journey of miles to get from him medical advice and assistance. He was an exponent of the Selectic school of medicine and, from specimens submitted to his examination, could judge of the nature of the disease without being obliged to see the sufferer. He lived in what is now known in Uniontown as the old National Hotel and adjoining his residence was a stage yard. Notwithstanding the great success of Dr. Braddee it failed to satisfy his greed for gain and he engaged in a business which for a time proved a "bonanza," but eventually brought him to the penitentiary.

THE CONSPIRACY.

It was at the time when the old National Pike, long since fallen to decay, was in the height of its prosperity. When the trade and passenger traffic between the East and the West passed overit, and it was the line of postal communication between Washington City and Wheeling, Cincinnati, St. Louis and other rising cities and towns of the West. It was along this line that the mails contained sums of money, and understanding the corruptibility of weak human nature, Dr. Braddee entered into a conspiracy with two or more of the stage drivers to rob the mails of their valuable contents. The arrangement was carried into effect, and for months the robbing was continued, the Government and citizens losing thousands of dollars. During the trial the method of procedure was developed as follows: As stated above, the stage yard at Uniontown adjoined the property of Dr. Braddee, and was separated from it by a high fence. It was a strange thing to see scores of old-fashioned coaches stored away in this yard, and amid the bustle and excitement of numerous arrivals and departures. It was a place admirably easy for one of the drivers in the conspiracy to enter the yard with six of eight horses in an easy trot and, unnoticed,

TOSS A MAIL BAG

over the fence into Dr. Braddee's yard. The Doctor knew when to expect these souvenirs, and took on the lookout for them, and there was no a matter of course, allowed to lie there long enough for any one else to observe it. The mail was taken into office, rifled of their contents, and the bags either burned, buried or thrown into an outhouse on the premises. Occasionally a mail robber was caught, and some of the bags discovered and submitted as evidence during the trial. This systematic thieving was kept up for a long time, and the government was almost completely baffled in its efforts to discover the parties engaged in it. It is said the entire absence of a force of trustworthy detectives was employed in working up the case, but finally a detective named Harry Worrall succeeded in securing one who were committing the robberies, and he arrested as the parties Dr. Braddee, and two stage drivers, one of them a Mr. Wm. Cochran, now dead. The other is still living. The astonishment which spread throughout Fayette county particularly, when the news of the arrest was known, can be well imagined. Dr. Braddee on a charge of robbing the United States mails got noised about, can now hardly be conceived. Indictments were found against the Doctor and Drs. Braddee and his fellow conspirators were arrested and brought to Pittsburgh.

$80,000 BAIL REQUIRED.

As an instance of the excitement to which the chief conspirator in this case was held, it is only necessary to state that when he was brought to this city he was accompanied by a body of Fayette county farmers who purposed becoming bail for his appearance for trial. When Judge Irwin announced that he would require $80,000 security, and the farmers saw the strength of the case against Braddee, some of them hesitated about going on the bail bond, whereupon Braddee addressed them in a high strung, independent nature, and wouldn't permit his honesty and integrity to be questioned in his presence. He was finally bonded, he could go to jail and declined allowing any to become his bondsmen. To prison he went and there he remained until his trial took place.

THE TRIAL.

On the 21st of May, 1841, a true bill on the indictment charging him with stealing from the U. S. mail was found, and four days later the trial commenced. It was the first case tried in the present court house, then a new edifice, all previous cases having been disposed of in the old court house, then located in the Diamond square. It came up for trial in the United States circuit court, Judges Baldwin and Irwin on the bench. It occasioned intense excitement, and the room was dissolely crowded, from the beginning to the end of the case, while people from all sections of the country, The prosecution was conducted by Neil Darragh, U. S. District Attorney, assisted by Mr. Wright and General J. R. Howell, of Uniontown, A. W. Loomis and Colonel Sam. Black, Judge Hampton had also been engaged to assist in the prosecution, but, although he was present during the trial, he did not take an active part in it. The defense was represented by —Austin, W. E. Austin, both of Uniontown, Richard Biddle, of Philadelphia, and Wilson McCandless. The latter, as our readers well know, is now Judge of the U. S. District Court, for the Western District of this State. Hon. Walter Forward, who was afterward Secretary of the Treasury, had also been employed to take part in the trial, but for some reason he was unable to do so.

THE RESULT.

The trial occupied about two weeks, and that the lawyers fought each other inch by inch, the names of the jurors perused are sufficient warrant. The addresses to the jury, it is said, were surpassingly eloquent, and at the same time replete with sound law and logic. On the 8th of June the jury returned a verdict declaring the prisoner guilty on three of the four counts of the indictment. Braddee was convicted mainly, if not altogether due to the testimony of his co-conspirators, both of whom plead guilty, then turned State's evidence, and for which they were pardoned by the President in September following. On the 7th of June, Braddee was sentenced to five years' imprisonment in the Western Penitentiary, but he died there before his term expired. During the trial it was a belief generally accepted that Braddee was possessed of large amounts of ready money and that he had buried it near his residence in Uniontown. Of that, however, no discoveries were made, and from prison to eternity, without uttering a word regarding it.

DETECTIVES NOW AT UNIONTOWN.

Nearly forty years have gone by and now the question of this hidden treasure again comes up for solution. Like many other long secreted treasures, it is supposed that, if it really does not prove a delusion, gives promise of being unearthed by the aid of one who is about to die. The writer yesterday received a communication from Uniontown, stating that United States detectives, with a posse of men, are now searching for the money supposed to have been buried by Braddee so long ago. The greatest excitement exists, and hundreds of persons are represented as congregating around the site of the old stage house, where the search is being made. We have not heard that any treasure has yet been turned up. The detectives were put upon the track of the buried money by a dying stage driver who knew Braddee, who claims to know the location of the secreted money, and who is approaching dissolution. Had the search been made only a few years ago it could have been prosecuted with greater ease, for the large brick residence of Wm. H. Bailey now occupies the identical spot of the old stage house, and should it be anyways close to the buried cash it may prove an insurmountable obstacle to a full investigation.

THE LIVING AND THE DEAD.

Before concluding it may be interesting to state that of the thirteen men who took an active part in the trial of Braddee, only one, Judge McCandless, is living. All the others are dead. Neil Darragh, one of the most brilliant and polished orators of his day, filled, before his death, the position of Attorney General of this State. It is unnecessary to tell Pittsburghers that Col. Sam Black was killed during Morgan's disastrous retreat upon the Peninsula. Gen. J. R. Howell was killed by the falling of his horse at the battle of Fair Oaks.

Braddee died after an incarceration of five or six years. He endeavored to create public sympathy, and succeeded, by feigning consumption. It is said that he was in the habit of opening one of the veins of an arm, sucking the blood from it and then expectorating it as evidence of his assertion that he was suffering from consumption.

The writer is indebted to Judge McCandless for much of the above information and the dates are taken from the records of the U. S. Circuit Court.

BLOOD DISEASES.

The blood being the source from which our system must draw its supplies for both its physical and mental as well as physical capabilities, how important that it should be kept pure. If it contains vile festering poisons all regard for functions are wonderfully thereby. Settling upon important organs, as the lungs, liver or kidneys, the effect is most disastrous. Hence it behooves every one to see that their blood is a perfectly healthy condition, and more especially does this apply at this particular season of the year than any other. There is no matter of doubt that many may be, the real cause of a large proportion of all diseases is bad blood. Now, Dr. Pierce does not wish to place his light under a bushel, and from the catalogue of quack patent nostrums by recommending it to cure every disease, nor does he so recommend it, on the contrary there are hundreds of diseases that he acknowledges it will not cure; but what he does claim is this, that there is but one form of bad blood disease that it will not cure, and that disease is cancer. He does not recommend this Discovery for that disease, yet he knows it to be the most searching blood cleansing ever discovered, and that it will free the blood and system of all other known blood poisons, be they animal, vegetable or mineral, if the right change can be effected by him to cure the worst forms of Skin Diseases, as all forms of Blotches, Pimples and Eruptions, also all Glandular Swellings, Salt Rheum, all forms of Scrofulous and Ulcerated Sores of the Neck, Legs, or other parts, and all Scrofulous Diseases of the Bones, as White Swellings, Hip Joint Disease, Spinal and Spinal Diseases, all of which belong to Scrofulous diseases.

CONFIRMED—HIP JOINT DISEASE CURED.

W. GROFF STATION, Ia., July 14, 1872.

DR. PIERCE, Buffalo, N. Y.:

Dear Sir—My wife first became lame nine years ago. Swellings would appear and disappear on her hip, and she was gradually becoming reduced, and her whole system rotten with disease. In 1871 a swelling broke on her hip discharging large quantities, and since that time there is several openings. Have had five doctors at an expense of $123, who say nothing will do any good but a surgical operation.

July 18th, 1873, he writes thus: My wife has certainly received a great benefit from the use of your Discovery, for she was not able to get off of the bed and was not expected to live a week when she commenced using it, a year ago. She has been doing most of her work for over six months. Has used twenty bottles and is still using it. Her recovery is considered as almost a miracle, and we attribute it all to t e use of your valuable medicine. I can cheerfully recommend it as a blood purifier and strength restorer.

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE, } SATURDAY, April 17, 1875. }

The banks continue to report the quiet accumulation of funds, and small demand for loans. They anticipate more active times shortly, although the effect of resumption at the mills has not reached them, and will not for a week or fortnight to come. The probable duration of work at the mills is much speculated about, the prevailing opinion being that possibly in two months they will close down again. No one really knows anything about it, and all that is said is mere speculation. If trade begets trade, and business stimulates business, work may continue. If not, or if production is too rapid, we may be overstocked again. This is all there is in this question.

Despite rumors to the contrary, there is a very considerable amount of building going forward in the city, and the prosperity that is marked by this circumstance is not inconsiderable. The plans thus given effect are, in many instances, of old standing, but the fact that they are given effect shows confidence in the future. The various buildings for rent in the city are quite well taken up, and there are fewer unr
